

...creating images which tell an honest & genuine story that will last forever"

I shoot weddings for couples who prefer a relaxed yet beautiful style of wedding photography.

My fine art approach, and use of soft natural light and a warm pastel colour palette, allows me to create fresh and luminous photography which has been published in wedding blogs worldwide including Love My Dress & Rock My Wedding.

I love the beauty of simple, timeless images.

My unobtrusive style enables me to capture the special moments & genuine emotions of the day. I pair these relaxed images with some beautiful styled fine art portraits, to create a series of images that tell your unique wedding story. I enjoy working with natural light as much as possible, so that the images of your special day look exactly how you remember them.

I focus on the intimate and sincere moments of your wedding, creating images that tell an honest and genuine story that will last forever. I will not just document the ceremony and the formalities, but those extra little moments which will give so much pleasure in years to come: the hands gently entwined, the looks of wonder, the proud glances, the secret tear brushed away.

I have successfully photographed a variety of different weddings, and my couples have always appreciated my hands off approach that lets me deliver my version of their day as elegantly and naturally as I can.

I would be delighted to be a part of your love story.

Most days I have a camera in my hand, creating fashion editorials for magazines, or capturing the beautiful moments of a wedding day.

I'm regularly travelling for work, but home is in Cardiff, South Wales, where I currently live with my boyfriend & work as a fine art photographer.

With a background in fashion photography and fine art, I have developed a very personal wedding style. I love natural light, simplicity and ethereal locations.

My fashion work has been published in publications including Wonderland Magazine, I Love You, Hunger Magazine, Vogue.it and ASOS Magazine.

Weddings and bridal shoots have taken me all across the UK & France, and I have had the opportunity to work with designers and boutiques including Maria Senvo, Shell Belle Lingerie, Kate Beaumont & The White Closet.

I can't wait to see where this journey will take me next.

I love taking photographs & I want you to have them all.

All my packages include a USB of high resolution images so that you can print & share.

However, I know that there's nothing like having a beautiful, hand crafted album to keep & cherish, and my fine art linen albums and books are the perfect option.

Albums start from £295 and can be ordered before or after your wedding.

You can choose between a 8x8, 10x10 or 12x12 album in a variety of linen covers.

I also offer heirloom books which are in a non layflat format-these books are a perfect modern alternative to a traditional wedding album. Prices start at £185.

album options

My fine art linen albums are lovingly made by a small bindery company in Europe. They understand & love fine art photography, and believe in making timeless heirloom products which will last for decades.

Fine Art Albums

All the beauty of fine art print enclosed in a book.

ArtBooks are made from single sheets printed on large format printers then carefully folded and bound by hand. The 12 colour pigment ink together with the superior quality paper create a fully archival, museum-grade product.

Your album will come with a handmade linen presentation box, pouch, cotton gloves and care instructions.

My paper of choice is Cotton rag, which allows me to provide high quality fine art prints. The fine, slightly textured surface and feel of this paper is ideal for printing both black and white and colour photographs with impressive pictorial depth.

- 15 Spreads
- 100% Archival acid free natural white cotton paper
- 310gsm per spread makes the book beautifully thick

Extra pages can be added to all my album options, please just ask me for the prices, which depend on your album size choice.

A lot of my couples love the look of fine art wedding photography, but they often aren't sure what it really means or why they are drawn to it rather than other styles of photography.

The fine art approach is about creating a cohesive series of beautiful & artistic images that tell your wedding story.

It's much more than documentary, it's about showing off a wedding to it's full potential through carefully crafted & considered imagery. With a background in fashion photography, I specialise in making your wedding images look soft & romantic. I pair these styled images with some natural candid shots throughout the day to create a cohesive collection of timeless images.

We want you to be our wedding photographer, what happens now?

After we've met and had a chance to discuss the details of your day, you can book me by filling in my booking form and sending the non-refundable $\pounds 250$ deposit to secure your date. We can chat via Skype if meeting up in person is not possible - I love to get to know my couples before their wedding.

When is the full payment due?

The remaining balance is due on the 1st of the month prior to the month of your wedding. You will receive an invoice a couple of weeks before. If your final payment is late, a late fee applies.

Who do you bring with you?

For most small weddings it'll just be me and my camera, however you do have the option of hiring a second photographer, which will cost an additional £250 for the day. Just let me know if you'd like to add one to your package.

Will you need food and a place to stay?

Depending on your wedding location, travel & accommodation expenses may be required. I will let you know how much this would be when you enquire. Travel is included in my local area of South Wales.

For bookings of 6 or more hours I wouldn't turn down a hot meal! I really appreciate being fed during my break, and would be very grateful. For full day bookings I usually have a break of 30 minutes during your wedding meal, to ensure I don't miss any of the important parts of the day.

Can we make prints from the USB?

Yes - I include a licence to print the images, however Emma Pilkington Photography retains copyright to all photos, and your licence does not include permission to sell, edit or submit your images to a competition.

How much do you edit the photos?

My editing style is minimal, because I always aim to capture natural beauty in the best light possible when I adjust my camera settings and click the shutter. The images will be a true representation of your day, processed with my signature soft and feminine style.

What happens after the wedding?

I shoot digitally, so I can start editing your images straight away. You will receive a USB of high resolution images within 4 weeks of your wedding. I like to get the images to you within a timely fashion, so that you can enjoy them whilst the memories of your wedding are still fresh.
